

JADE

AIR PURIFICATION SYSTEM (SCA5000C)

Surgically Clean Air's JADE Air Purifier (SCA5000C) is one of the World's Most Advanced Standalone Medical Grade Air Purifiers.

MOVES A LOT OF AIR

Easily cleans & purifies large workplaces.

LOW TOTAL COST

Lowest cost per cubic foot of air cleaned over a 5 year period

WHISPER QUIET

Sound engineering allows a large airflow at < 50 dB.

ROBUST TECHNOLOGY

Multiple distinct stages that filter, sterilize and re-energize indoor air.

WE DON'T JUST FILTER POLLUTANTS, WE DESTROY THEM.

- ✓ Remove harmful viruses, toxins, pollutants & airborne contamination
 - ✓ Significant Market Differentiator
 - ✓ Reduce resident, staff and guest's anxiety
 - ✓ Increase alertness & mental energy
 - ✓ Increase productivity for staff
 - ✓ Reduce absenteeism for staff
 - ✓ Minimize facility odours
- Protecting over

35,000+

Medical Professionals
- ✓ Less sick days for residents
 - ✓ Ability to market facility as having 'Surgically Clean Air'

Specifications:

Dimensions:	(D) 12 in x (H) 33.5 in (D) 30.5cm x (H) 85cm
Weight:	30.6lbs 13.9kgs
Sound Level:	Low: <30dB (A) High: <55dB (A)
Technologies:	
Pre-Filter	Yes
Ultrafine Particulate Filter (HEPA-Rx)	Yes
Activate Carbon Filter	Yes
Germicidal UV-C+ Bulbs	Yes
Hydroxyl Radical Reactivity Chamber	Yes (Permanent)
Revitalizing Chamber	Yes (Permanent)
Auto Function:	Yes
Air Quality Sensors:	Yes
Control Panel:	Hand Wave Sensor (Prevents Cross-Contamination)

Surgically Clean Air's JADE Air Purifier can remove almost **100%** of Air Pollutants, Viruses, Bacteria & Fungus present in indoor air. (Performance Guide Available)

**MONITORS
AIR QUALITY
IN REAL TIME.**

WHAT YOU SEE

WHAT YOU BREATHE

THE STAGES OF AIR PURIFICATION

CAPTURE

PRE-FILTER STAGE

The pre-filter stage catches the largest particles as room air is drawn through the intake chamber.

PROPRIETARY HEPA-Rx FILTER

The HEPA-Rx filter captures almost 100% of the ultrafine particulates down to 0.0025 microns in size.

ACTIVATED CARBON FILTER

The activated carbon filter absorbs VOCs (Volatile Organic Compounds) - noxious odours, chemicals and gases.

GERMICIDAL UV-C+

The high intensity Germicidal UV-C+ ruptures the DNA of viruses and bacteria, effectively destroying them.

TiO2 CATALYST

The Titanium Dioxide Catalyst adds more energy to the intensity of the Germicidal UV-C+ light. Electrons are then released at the catalyst surface. These electrons interact with water molecules and create Hydroxyl Radicals. This stage is sometimes referred to as photocatalytic oxidation.

HYDROXYL RADICALS

Hydroxyl Radicals are released into the air and further attack pollutant molecules, breaking apart their chemical bonds rendering them harmless. It's like 'hand sanitizer for the air'.

REVITALIZING NEGATIVE ION CHAMBER

Before the pure, clean air is circulated back into the room, the air is revitalized with negative ions.

Studies have shown that Negative ions increase the flow of oxygen to the brain; resulting in higher alertness, decreased drowsiness and more mental energy.
